CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

## What Happened To Glades Dinners?

What ever happened to the famous Everglades Dinners? A few years ago the Lake Okechobee Farming Region gained state-wide publicity from these delectable dinners served from products grown exclusively in the Glades.

Are folks too busy trying to make a living? Don't the Chambers of Commerce consider the favorable publicity received from the dinners of enough value to re-establish them? Are they more trouble than they are worth? Or have we lost some of our old zip when it comes to doing things which would bring favorable publicity to this vast agricultural area here on the eastern shore of Lake Okechobee?

Once upon a time the Pahokee Rotary Club sponsored a county-wide Rotary meeting at which hundreds of Rotarians from the county were in attendance. For months after that meeting, West Palm Beach and East Coast cities in the county were talking of this wonderful farming area and the delicious products cooked for that particular dinner. Is something like that worthwhile? Or should we just go along as we have for a couple of years—doing very little to publicize this section of Palm Beach County?

## 150 In Attendance At FFA Banquet

Approximately 150 persons attended the banquet sponsored jointly by the Pahokee Chapters of the Future Farmers of America and the Future Homemakers of America held in the school cafeteria with Johnny Kautz, president of the Pahokee FFA Chapter, acting as master of ceremonies, and parents of members present as guests.

The FFA boys opened the meeting with a demonstration of how a typical FFA meeting is conducted. Awards in the form of pins were presented to those who participated in sub-district and district FFA contests, including Ronnie Jones, tractor-driving; Johnny Kautz, public speaking; Ronnie Jones and Junior Deas, horseshoes; Pat Maxwell, Jimmy McElhenny, Lee Gränins, Bobby Kennedy, Tommy Holt and Bill Johnson, parliamentary procedure team. Alice Hurt, the chapter sweetheart, was presented with an FFA sweater.

For the FHA girls, Patsy Keen gave the address of welcome and Bonnilu Lair reviewed local FFA activities during the past year. All the FHA girls participated in the closing ceremony by retiring in unison the FHA creed.

Authorized was the payment of \$300 to the city engineer and to Architect George Votaw for their addendum to the original plans for the addition. ## To Pay Or Not To Pay Migrant Ill Bills

Responsibility for care of medically indigent workers who do not meet requirements for receiving welfare aid, was argued by the county commission this week.

The debate was touched off when a bill was presented for payment for hospitalization of migrant workers not in the county long enough to meet welfare department residence requirements.

County Commissioner Kenneth Foster said if workers are invited here to help harvest crops, then it was a county responsibility to take care of them.

Commissioner Roy Michael, Jr., disagreed, saying if the board approved the bill—it will open the door for similar bills. He said other nearby counties will not allow such payments.

The board referred the bill to County Attorney Harry Johnston for a written opinion as to the board's responsibilities in the case.

## Youth Center Will Study Problems

All persons in Pahokee interested in the Youth Center at Pahokee, whether or not they are the parents of school-age children, are urged to attend an open meeting at the YC building on East Main St., Monday, May 30, at 8 p. m., when the future operation of the Youth Center will be discussed.

The decision for the open meeting, where arguments relating to the activities at the center, both pro and con, could be aired and discussed, was made at the meeting of the YC board of directors the first of the week, with Mrs. I. Marshall Lair, president, presiding. It was reported at this meeting the recent "radiothon" fund-raising drive netted the Youth Center \$1,662.52. Of this amount a thousand dollars was used to pay the back salary of Mrs. Marie Kincaid, YC director, and the balance will go also to pay bills already outstanding, according to Mrs. James Batchelor, YC secretary.

The Pahokee Youth Center was organized to offer clean, wholesome and interesting recreation for children of all school ages, from the first to twelfth grades, and at this open meeting there will be a request for ideas on the operation of the center in an efficient and satisfactory manner and a workable plan for the financing of its operation, Mrs. Lair said.

The play, adapted from the third grade basal reading book, revealed some of the scenes enjoyed by a traveling couple, Mr. and Mrs. Sanders, during their journey through Norway, England, Brittany, Spain and Africa.

The children, dressed in native costumes, sang folk songs and did dances typical of the countries through which the Sanders traveled. ### Scouts Spend Week End On Camp Trip

Boy Scouts of Troop 628 spent the week-end camping at Fish Ewing Creek. After a late start because of battery trouble we arrived at the camping site in time to get camp set up and have a swim before bedtime. Next morning we were all up bright and early, prepared breakfast, afterwards going to the creek to build our sack swing higher and then swimming. After lunch more swimming and diving contests. Later we decided the scoutmasters needed a mud pack but before it all ended Joe Graham, Wayne Boynton, John Robins, Mike Watkins and Wayne Ludlam were mud plastered. Billy Boe was the photographer so perhaps later we will be able to show you the results. And to think the ladies pay good money for mud packs when they could get one for free on our camping trips.

After swimming in the morning we had chapel, then had lunch, packed up the gear and then the trip home. On the way home we had a north and south war. Everyone had a very good time. Our thanks to Scoutmasters Mims and Carter.

The Boy Scout flag sale ended Friday night at the regular meeting. The total sales figures aren't available to date but there were well over \$500 in sales. Delivery of the flags will be made just as early as possible and our thanks to all who helped make this sale the success it was.

Make your dream house come true! It's easy  
—through Payroll Savings!

If you think you can't own the home of your dreams because the down payment's too steep, chances are you've never tried the Payroll Savings Plan. Because this is the easy, automatic way to meet any down payment—for a house or any large purchase.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U. S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,548.58 cash. In 9 years, 8 months, you'll have \$7,217.20!

So don't let down payments get you down. Meet your needs for ready cash the way more than 8 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

*If you want your interest as current income, ask your bank about Series H Bonds, which pay interest monthly by Treasury check.*

## Pick your savings target and shoot straight for it!

A home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2088 in cash; in 10 years, \$4666.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

### Christian Science Group Of Canal Point

Some fundamentals of the prayer  
 that affords protection from  
 evil of every nature will be brought  
 out Sunday at Christian Science  
 services.

The Lesson-Sermon entitled  
 "Ancient and Modern Necromancy,  
 alias Mesmerism and Hypnotism,  
 Denounced" will include  
 the following verse from the Bible  
 (Isaiah 41:10): "Fear thou not;  
 for I am with thee: be not dismayed;  
 for I am thy God: I will strengthen  
 thee; yea, I will help thee:  
 yea, I will uphold thee with the  
 right hand of my righteousness."  
 Selections from "Science and  
 Health with Key to the Scriptures"  
 by Mary Baker Eddy will include  
 this (4:3-5): "What we most need  
 is the prayer of fervent desire for  
 growth in grace, expressed in  
 patience, meekness, love and good  
 deeds."

The Golden Text is from Romans  
 (16:20): "The God of peace  
 shall bruise Satan under your feet  
 shortly."

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.57 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.

## Does Cotton Keep Flies Away From The Door?

With the sweet corn season and a great deal of peppers thrown away on the various dumps in the Glades, the common house fly has become a nuisance this spring. On several doors, blobs of cotton have been placed on the screens and it was put there because the owner believes that the cotton will keep out the flies.

Do you think cotton will keep out the flies? It is something to think about. A dime's worth of cotton would be enough to keep thousands of flies out of any house or business place, if it works. Are you a believer in the "cotton on the screen" method of keeping flies out of your house?
